

Champion Training Course

2 Days – Open Access Training - £695

An **executive** seminar for those tasked with the **implementation** of Lean Six Sigma

Champions understand what Lean Six Sigma is and how it can improve their organisation. Their task is to facilitate a corporate culture of change, select the right projects, and facilitate Black and Green Belt training.

When to book this course

In this 2-day programme, Executives, Senior Managers and others with responsibility for deployment will learn how to successfully design, deploy and sustain a Lean Six Sigma initiative.

The Champion Role

Champions initiate, facilitate, approve and review improvement projects, and ensure the required resources and manpower are in place to deploy Lean Six Sigma successfully.

Course Content

The DMAIC methodology, the lean approach, Design for Six Sigma, Voice of the Customer and Supply Chain implementation are all covered. Tools for people selection, project identification and launch, programme review and management are provided.

The Champion Course contains...	
Business Improvement	Why structured business improvement is necessary Different methods of improvement What is Lean Six Sigma and where it came from
Programme Success Factors	Identifying key drivers of change Overcoming common pitfalls of deployment
Lean Six Sigma	Common Lean Six Sigma metrics The data driven approach
People Selection	The roles in Lean Six Sigma Internal BB & GB selection Hiring external expertise Overcoming issues of retention
Project Selection	The voice of the customer Tools for project selection & prioritisation
Programme Deployment	Strategic vs. tactical deployment Change management issues Creating a business case Tracking project success Action planning

First Delegate	£695
Second Delegate	£625
Third and subsequent Delegates	£555
<i>*All prices exclude VAT</i>	

Teaching Methods

Our Champion programme is a mix of up-front teaching, individual and group exercises. During the course our trainers will give plenty of real life examples taken from Lean Six Sigma implementations, and cover risks, pitfalls and lessons learnt.

We have developed our own, proprietary course material. You will receive all training material in hard copy folders as well as digitally as PDF. You will need a computer during the course.

Typical participants

Previous delegates have been CEO's, directors, managers and supervisors looking to increase their knowledge of Lean Six Sigma.

Prerequisites

An ideal delegate brings good communication skills, an open mind, and strives for continuous personal development and improvement. Delegates will ideally have had exposure to a managerial or supervisory role within the organisation.

Certification

Upon successful completion of the training, you will receive a certificate of training completion.

Testimonials

"There was a lot of useful information delivered in quite a short time. I particularly enjoyed the chance to ask further questions and approach the tutor directly after the course."
Hotel & Catering

"The knowledge that I have gained will be very useful, thank you for an outstanding course"
Public Services

"A very useful course, lively delivery! I wish all training courses were like this!"
