

# Yellow Belt Training Course

5 Days – Open Access Training - £1,195

## The most all embracing Yellow Belt programme you'll find

*Yellow Belts undertake projects with the discipline and rigour of Lean Six Sigma, but in circumstances where the scale and nature of the projects does not require the complex statistical analyses usually associated with Lean Six Sigma projects.*

*Yellow belts are ideally placed to assist Black and Green Belts with their larger more complex projects*

*Yellow Belts are ideal in Service Environments where a limited set of analytical tools is enough to sort out process and admin problems*

*Yellow Belts can complete projects in Industrial Environments where complex statistical analyses is not required*

*Yellow Belts take up Lean Six Sigma responsibilities alongside their normal tasks in the company.*

### When should you book this course?

If you have been asked to participate in a current or future Lean Six Sigma or Business Improvement programme, or you would like to take your career one step further, then our Yellow Belt course will provide the essential training that will allow you to take your skills to the next level.

### What will you learn?

The Yellow Belt course provides you with an understanding of what Lean Six Sigma is and the ability to execute projects within your own organisation with effective use of Lean Six Sigma tools and techniques.

You will be able to confidently identify where more complex tools could add value, and be able to effectively support Green and Black belts. The programme is a mix of lectures, reading, discussion and practical exercises, with a case study built into the course that allows delegates to apply what's learnt in a classroom simulation.

### Training material

We have developed our own, proprietary course material; You will receive all training material as hard copy folders as well as digitally in PDF format.

Yellow Belt Course Price & Discount	
First Delegate	<b>£1,195</b>
Second Delegate	<b>£1,095</b>
Third and subsequent Delegates	<b>£995</b>

### Objectives

- To introduce delegates to Lean Six Sigma
- To give delegates a working knowledge of the Lean Six Sigma DMAIC road map
- To provide delegates with a good understanding of a selection of foundation Lean Six Sigma tools
- To enable delegates to run Lean Six Sigma projects not requiring complex statistical analysis
- To enable delegates to provide significant support as team members of Green and Black belts projects

### Who are typical participants?

Typical participants will be those who are involved in supporting or leading process improvement activity in either transactional or industrial situations.

### What are the prerequisites?

Ideal candidates possess good communication skills and enjoy working in a team. Yellow Belts should be results oriented and keen to assist in the delivery of Strategic Objectives.

### Certification

Upon successful completion of the training, you will receive a certificate of training competence.

---

### SigmaPro Testimonials

*"Thanks again for all your help. The training went really well, great tutor also – all our candidates commented on how well the training was presented and managed"*
